Experience or price comparison may be sought from known suppliers; price is the primary factor and is usually not negotiated. Vendor invoices shall be approved by a Department Head or delegated to their Manager/Superintendent/Supervisor/Clerk at the discretion of the Department Head.

At the discretion of the Manager/Clerk and/or Departments Heads, additional quotes may be obtained should they feel that they are not receiving a reasonable price for the goods and services. Vendor invoices must be approved by the Department Head or delegated to their Managers/Clerk at the discretion of the Department Head.

Price comparison shall be sought, where practicable; price is the primary factor and may be negotiated.

The requesting department shall obtain two to three informal quotes, where practicable, through phone, supplier advertisements, supplier catalogues or other similar communication methods. The Department Head of the requesting department shall prepare a purchase requisition, with results of price comparisons attached, and forward to the Purchasing Department in which a purchase order is supplied directly to the lowest priced supplier. - The Request for Formal Quotations may be preceded by a Request for Pre-Qualifications or an Expression of Interest.

competitive sealed bid process. Pre-qualification shall only be considered in one or more of the following circumstances:

- (i) The work involves complex, multi-disciplinary activities, specialized expertise, equipment, materials or financial requirements.
- (ii) The work is such that Contract Administration costs (work inspection, follow-up, and extra fee negotiations) could result in a substantial cost to the City if the work is not satisfactorily performed the first time.
- (iii) The goods or services to be purchased must meet national safety standards, or if no standard has been established, require a demonstrated acceptable level of performance.
- (iv) The work is considered “high risk” with respect to regulations governed under the Occupational Health and Safety.
- (v) Where it is felt limiting the number of bidders who can submit a bid for the final competitive Bid Solicitation process will increase the quality of bids submitted by each, as they know competition has been limited and their chances of success are increased.

Pre-qualification involves a two-step process, where a Bid Solicitation process will follow. Pre-qualification is the first step, and sets out criteria requiring bidders to provide information including, but not limited to:

- (i) Experience on similar work,
- (ii) References provided from other customers for similar work,
- (iii) Verification of applicable licenses and certificates,
- (iv) Health and Safety policies and staff training, and
- (v) Financial capability.

Appropriate staff and/or consultants will evaluate, rank the submissions and approve a short list of acceptable suppliers who will be invited to participate in the subsequent procurement process.

e) Request for Information

Used to build supplier interest and to see if there are enough suppliers to justify a full Bid Solicitation process. The Request for Information may request detailed information including, but not limited to, company background, who the interested parties are, what they can offer and what they can do for the City

- b) Where practical, specifications or Terms of Reference should be considered that are detailed but not brand specific to leave room for potential vendors to provide alternatives in the event an equal or better-proven product or method is available.

2.19 Request for Vendor Input

- a) A potential or existing supplier may provide technical assistance free of charge in developing procurement specifications or requirements. However, the City may not accept a bid or proposal or award a contract to a supplier who received compensation from the City to provide assistance in the preparation of the specifications on which the solicitation or contract is based.
- b) A supplier who assists the City in developing specifications or requirements may not disclose, to any potential supplier who plans to submit a bid or proposal, information concerning the procurement which is not available to the public. In addition, the supplier who provided such development services for payment may not be a subcontractor or partner for the supplier who is awarded the contract or any of that supplier's subcontractors or partners at the City's option, taking into consideration the magnitude of services to be provided and the scope/scale of the potential conflict of interest.
- c) Any independent contractor employed or otherwise paid by the City to design a project, develop a scope of work, write specifications, or otherwise define contract requirements is also not eligible to compete for or receive the resulting contract.
- d) Any detailed specifications developed as a result of the assistance, whether compensation was provided or not, shall become the property of the City.

2.22 Receipt of Physical Bids

All sealed bids received in response to Bid Solicitations shall be received by the Purchasing Manager, in accordance with the instructions in the Bid Solicitation, and opened in public, where applicable, at the time and place stated in the Bid Solicitation. "late bids". Sealed bids will only be accepted from individuals/companies on the list of bidders that have formally requested and received the bid document directly from authorized personnel from the City or a consultant acting on behalf of the City. The Purchasing Manager shall ensure all sealed bids are stored in a secure location. The number of bids received and the name of the bidders is confidential and must not be divulged prior to the tender opening, except in the case of construction requests for tenders where sub-trades may need to know what general contractors have picked up tender drawings.

2.23 Receipt of Electronic Bids

2.24 Bids with Equal Total Prices

If two low Bids are found to be equal in price, quality and service, the equal bidders will be given 48 hours to re-submit. If a tie still exists, the successful bidder shall be determined by a coin toss. The coin toss shall be performed by the Purchasing Manager in the presence of a representative of the initiating Department.

2.25 Invited Bids Addendum Through Formal Process

In no instance shall anyone, except the Purchasing Manager or his designate, issue any verbal or written changes on an invited bid, with regards to conditions or specifications. All changes must be done through addendum issued with the approval of the Purchasing Manager.

2.26 Acceptance of Invited Bids

The lowest or any bid will not necessarily be accepted. The Corporation of the City of Pembroke reserves the right to reject any or all bids, or to award the Contract to other than the bidder submitting the lowest bid. The City may take into account any elements or any information contained in the bid, any criteria or other information required to be submitted in the bid or disclosed under the terms of the bid or requests for bids and the references of any bidder and any other factor which it deems relevant and which forms any part of any proposal directly or implicitly of any bid.

- b) If, in some instances, the user department wishes the Purchasing Department to enforce the terms, conditions and specifications, that department must advise the Purchasing Department, in writing, prior to the issuance of City documentation to the vendors.

2.30 Blackout Period

- a) From the time a procurement document is issued until the time a contract is signed by the City and the awarded Bidder, Bidders must conduct all communication about the procurement only with the designated City procurement representative stated in the procurement document.
- b) Any communication initiated by a Bidder to elected officials or staff of the City other than to the designated City procurement representative during this “Blackout Period” will constitute grounds for disqualifying the offending Bidder from the procurement process.
- c) Any elected official or other City staff that is approached by a Bidder shall refer the Bidder to the designated City procurement representative for the Bid opportunity.

2.31 Lobbying Prohibited

If any director, officer, employee, agent or other representative of a Bidder, including any other parties that may be involved in a joint venture, consortium or similar business relationship with the Bidder, makes, from the time the procurement is released, any representation or solicitation to any elected representative or employee or agent of the City including project consultants, or to the media, with respect to the Bidder’s bid, the City will be entitled to reject the Bid.

2.33 Contractor's Rating

The Department Head shall document evidence and advise the Purchasing Manager and CAO in writing no later than 30 days from substantial completion where appropriate or within 30 days of the final payment to the vendor, where the performance of a supplier has been unsatisfactory in terms of failure to meet contract specifications, terms and conditions or for Health and Safety violations.

Council may prohibit an unsatisfactory supplier from bidding on future contracts.

2.34 Contractor Integrity

The Municipality may reject Bids and/or terminate existing Contracts for reasons including but not limited to circumstances where:

- a) A Bidder/Contractor has been suspected based on reasonable, objective evidence or convicted of corruption, collusion, bid-rigging, and/or any other anticompetitive activity or any other offence under the Criminal Code.
- b) The City is likely to incur increased legal costs in the administration of the Contract if it is awarded to the Bidder;
- c) A bidder has failed to satisfy an outstanding debt to the City; and/or
- d) There are reasonable grounds based on sound objective evidence to believe it would not be in the best interest of the City to enter into a Contract with the Bidder.
- e) Notwithstanding the foregoing, in cases where the basis for rejection or termination as set out above is with respect to an individual who is currently an owner or member of the board of directors of the Contractor, and the individual resigns or is dismissed within a reasonable period of time, the City may continue to award the Contract with heightened scrutiny.

2.35 Non-Competitive Purchase - Single Source

The purchase of a good or service by negotiation through a particular vendor rather than through the solicitation of bids from other vendors who can provide the same good or service, may be adopted, if in the judgement of the Purchasing Manager and in consultation with the requisitioning Department Head and CAO, as applicable, any of the following conditions apply and provided that the single sourcing would not be in conflict with any Free Trade Agreement or other legal

obligations:

- c) where an existing contract has expired or will expire shortly and unforeseeable circumstances have caused a delay in issuing a new procurement so that a contract extension is required;
- d) work is required at another location and a contractor has already been secured through a tender process, with established unit prices and it is considered to be beneficial and cost effective to extend the unit prices for the work to be completed on a similar job;
- e) where carrying out of the work by a contractor other than the contractor who did the original work would nullify the warranty or guarantee held;
- f) it is necessary to arrange interim contractual arrangements following the expiration or breach of a contract;
- g) an item or service is purchased for testing or trial use;
- h) a product is leased or rented by the City with or without a credit purchase option, and such purchase option would be beneficial to the City;
- i) when only one bid/proposal is received through the procurement process and it is impractical to recall the requirements of the call for quotations, tenders or proposals;
- j) when no bids were received in a competitive process;
- k) specific standards are adopted by Council;
- l) where goods or consulting services regarding matters of confidential or privileged nature are to be purchased and the disclosure of those matters through an open competitive process could reasonably be expected to compromise confidentiality, cause economic disruption or otherwise be contrary to public interest; or

NOTE: Single Source Purchase will only be permitted with written justification to be reviewed by the Purchasing Manager, User Department Head and CAO, where required.

- (b) compatibility with an existing product, equipment, facility or service is required;
- (c) there are patented, copyright or proprietary rights.

2.37 Unsolicited Proposals

Unsolicited proposals received by the City shall be referred to the Purchasing Manager for review and discussion with the user Department Head. No consideration shall be made for an unsolicited proposal unless there is a legitimate need for the goods and/or services offered by way of the unsolicited proposal. Any procurement activity resulting from the receipt of an unsolicited proposal shall be conducted in accordance with the provisions of this Policy. A contract resulting from an unsolicited proposal shall be awarded on a Non-Competitive basis only when the procurement complies with the requirements of 2.35 or 2.36.

2.38 Purchases Through Public Auction or Public Tender

In instances where a department wishes to purchase through public auction or public tender, the Department Head shall advise the Purchasing Manager of the conditions involved in the proposed transaction prior to the event.

2.39 Emergency Purchases (Other Than Declared States of Emergency)

Notwithstanding the provisions of this Policy, the following shall only apply in case of an emergency, when an event occurs that is determined by a Department Head and the CAO to be:

- a) a threat to public health;
- b) the maintenance of essential municipal services;
- c) the welfare of persons or of public property; or
- d) the security and/or economic advantage of the Municipality's interests and the occurrence requires the immediate delivery of goods or services and time does not permit for competitive bids.

The Department Head shall obtain the prior approval of the CAO. (An information report shall be submitted to Council explaining the actions taken and the reason(s) therefore).

2.40 Follow-On Contracts

Authority to approve a follow-on contract will be as per authority limits for contract award under this Policy.

The purchasing procedures and policies of the Government agency or public authority initiating the procurement process will be followed.

The procurement process required for long-term purchasing arrangements should be based on the total expected value of goods/services to be acquired over the entire term of award.

2.43 Exclusion of Bidders in Litigation

No bid or proposal will be accepted from any bidder, inclusive of its subcontractors(s), which has a claim or has instituted a legal proceeding or has threatened to claim or institute a legal proceeding against the City or against whom the City has a claim or has instituted a legal proceeding with respect to any previous contract, without the approval of City Council. Appendix A

Bid Irregularities

Bid Irregularity

A bid irregularity is a deviation between the requirements (terms, conditions, specifications, special instructions) of a bid request and the information provided in a bid response.

For the purposes of this policy, bid irregularities are further classified as "major irregularities" or "minor irregularities".

A **"major irregularity"** is a deviation from the bid request that affects the price, quality, quantity or delivery, and is material to the award. If the deviation is permitted, the bidder could gain an unfair advantage over competitors. The Purchasing Manager must reject any bid which contains a major irregularity.

A **"minor irregularity"** is a deviation from the bid request, which affects form, rather than substance. The effect on the price, quality, quantity or delivery is not material to the award. If the deviation is permitted, the bidder would not gain an unfair advantage over competitors. The Purchasing Manager may waive such minor irregularities.

Mathematical Errors - Rectified by Staff

The Purchasing Manager will correct errors in mathematical extensions and/or taxes, and the unit prices will govern as described in the procurement document. The responsibility for correcting mathematical errors may be delegated to the requisitioning department.

Action Taken

The Purchasing Manager and Department Head will be responsible for all action taken in dealing with bid irregularities, and acts in accordance with the nature of the irregularity: major irregularity (automatic rejection)

- minor irregularity (bidder may rectify)
- mathematical error (additions or extensions) as above

In the event that the vendor withdraws his bid due to the identification of a major irregularity, the municipality may disqualify such vendor from participating in municipal quotations/tenders/requests for proposals for a period of up to one year.
